Consultation Only Referral

Clients are welcome to consider a “consultation only” visit to our specialist services. We will advise to the best of our abilities how to proceed with the patient and we will provide your own veterinary surgeon with a written report summarising our findings and recommendations. Please let our clinicians know if this is your preferred option.

Individual Services

Cardiopulmonary

The basic cost for investigation of a routine cardiac or respiratory case is approximately: £500 - £2,000.

This includes an appropriate selection of the following: consultation, routine haematology and biochemistry profile, cardiac biomarkers, electrocardiography, Holter analysis, thoracic radiography, echocardiography, bronchoscopy, bronchoalveolar lavage, CT, airway sample cytology and culture and sensitivity.

Dermatology

The basic cost for the initial work up of a dermatological case varies depending on the complexity of the problem and the likely tests, procedures and treatments. These would be discussed at the initial consultation.

Initial investigation of itchy dogs, cats and horses: £500-750

Initial investigation of hair loss: £400-600

Initial investigation of ulcers, nodules and crusts: £450-650

Initial investigation and treatment of chronic external and/or middle ear disease (anaesthetic, CT scan, ear flush, myringotomy, cytology & culture) - £1500-1750

Hair plucks, skin scrapes or cytology: £30 each

Intradermal allergen test with up to 53 allergens - £250-300

Allergen specific immunotherapy (including sub-lingual) induction: £180 - £250

Allergen specific immunotherapy (including sub-lingual) maintenance: £100 - £180

Video otoscopy, ear flush and myringotomy: £500-600

Laser treatments and surgery: £300 - £1000

Laser foot surgery (podoplasty): £750 - £1000

Skin biopsy: £250-300

Many skin conditions are on-going and require lifelong treatment. This adds to the overall cost, but we will discuss the costs of different treatment options with clients to help them make the best decision for their animal.
